Notes

- All figures are measured at the end of the last trading day of each month unless otherwise stated.
Change refers to the change since the same period last year unless otherwise stated.
- Equity market capitalisation includes all securities quoted on the NZX Main Board (NZSX).
With an overseas domiciled Issuer, the market capitalisation represents the amount that is held in New Zealand.
- Market capitalisation for the NZX Debt Market is the total nominal (face) value of all listed securities, excluding New Zealand Government stock.
- Funds include exchange traded funds, managed funds, listed investment companies and trusts.
- "Other" securities include rights, warrants and options quoted on the NZX Main Board (NZSX).
- Auction value traded refers to trades made during the opening and closing auctions. Continuous value traded refers to on market trades made on NZX Central and NZX Debt Markets during the Normal Trading session. On market value traded refers to all trading excluding off market trades.
- Please note these operational statistics are based on NZX's internal records, which are unaudited.
Differences may arise between this data and that disclosed in subsequent audited financial statements.
Differences may also arise between this data and the previously reported data due to rounding and classification restatements.
