

25 November 2025

Contact31+ Strategy, Capital Markets Day 2025

Contact Energy (Contact) has released its strategy to lead New Zealand's renewable energy future; Contact31+.

Contact has outlined its plans to extend its advantage as New Zealand's geothermal leader, lead on new flexibility in New Zealand, build into new demand with wind and solar and lead the energy transition at home.

"Over the last five years, we have delivered strongly against our Contact26 strategy, with this past year being one of the most significant in Contact's history," said CEO Mr Mike Fuge.

"We have to keep the momentum going. New Zealand needs more renewable energy and flexibility as the energy transition continues. We have a clear plan to deliver this with Contact31+."

Contact is hosting its Capital Markets Day 2025 today. The presentation materials are attached, focusing on the Contact31+ strategy.

Presentations will run from 10am to 2.30pm NZDT. A livestream of the day can be accessed by registering [here](#).

A recording will also be posted to the [investor presentations page](#) of the Contact website.
