Background information

Comvita (NZX:CVT) was founded in 1974, with a purpose to improve people's health through the power of nature. Comvita is the largest producer of UMF™ certified Mānuka honey, with a team of over 400 people, and operations in New Zealand, Australia, Greater China, North America, Japan, Korea and Southeast Asia. Comvita's vertically integrated supply chain runs from its own Mānuka forests and beehives in New Zealand through to an international omni-channel distribution model. Comvita operates its own government-recognised and accredited laboratory to test and verify that all bee-product ingredients are of the highest quality. It also maintains an ongoing scientific research programme to deepen understanding of Mānuka trees, bee welfare and the benefits of Mānuka honey. Comvita has planted millions of native Mānuka trees, improving natural ecosystems and biodiversity, mitigating climate change, and helping ensure the sustainable supply of high quality Mānuka honey. In 2023, Comvita became a certified B Corp, joining a global community of businesses that see business as a force for good.
