Ventia awarded Victorian Intelligent Transport Systems (ITS) Maintenance Contracts across two regions

Ventia Services Group Limited (ASX: VNT) has been awarded two Intelligent Transport Systems (ITS) contracts by Head Transport for Victoria to deliver maintenance services across Victoria's Central and East regions.

The contracts have a combined estimated value of approximately \$160 million over the initial five-year term, with extension options of up to a further four years.

The award further strengthens Ventia's position as a leading provider of transport infrastructure services and expands its role in supporting the safe, reliable and efficient operation of Victoria's road network. Under the contracts, Ventia will provide comprehensive maintenance services across traffic signals, street lighting and ITS assets.

Managing Director and Group Chief Executive Officer, Dean Banks, said "the award reflects Ventia's proven capability in managing complex, technology enabled infrastructure networks."

"These contracts align strongly with Ventia's expertise in maintaining critical transport assets and supporting our customers through safe, responsive and data driven service delivery," Mr Banks said.

Contract commencement is expected from 1 December 2026.

This announcement has been authorised for release by the Ventia Disclosure Committee.
