## **RTO signs strategic cooperation framework for Australian renewable energy opportunities**

RTO Limited (NZX: RTO) advises that it has entered into a four-party strategic cooperation framework agreement with Mondiaux Energy, Bitwatt and Bamboo Technology.

The framework agreement provides a basis for the parties to explore potential opportunities in the Australian renewable energy sector, including solar energy, battery energy storage systems, microgrids, power purchase arrangements and related energy management technology.

The framework agreement is non-binding in respect of any future project, acquisition, investment or financing arrangement. RTO has no immediate obligation to invest funds, issue securities, provide financing or proceed with any project.

Any specific transaction and RTO's participation will be subject to due diligence, separate definitive agreements, Board approval and any required shareholder, NZX or regulatory approvals.

RTO will make further announcements as required by the NZX Listing Rules.

Authorised by the Board of RTO Limited.
