MANUKA REPORTS A$3.906 MILLION IN OCTOBER GOLD SALES AS WEEKLY DELIVERIES CONTINUE

Highlights

- **Manuka's Wonawinta gold and silver processing plant progresses towards target production.**
- **October gold sales of A$3.91 million**, comprising 651oz of gold and 1,443oz of silver from its first three deliveries to ABC Refinery during the month (deliveries on 16, 23 and 30 October 2026).
- Following the transition to weekly deliveries, **four precious metals deliveries are planned for November**, the first commencing this week **6 November** and weekly thereafter.
- Expectations are for the average head grade to date to increase from 0.81g/t Au towards JORC reserve head grade 1.1g/t Au, subject to normal operational and geological variability.[1][2]
- The Company continues to identify and process additional sources of gold-bearing material from existing inventories and ongoing operational activities.
- Wonawinta plant operations have remained stable and broadly consistent with management's operational expectations since recommencement of Mt Boppy gold ore processing.

Manuka Resources Limited (**ASX/NZX**: **MKR**) (**Manuka** or **the Company**) is pleased to provide an update on gold production and sales from its 100%-owned Wonawinta processing facility in the Cobar Basin, NSW.

Following the recommencement of gold processing on 22 August 2026, Wonawinta has progressively increased throughput and established regular gold deliveries to ABC Refinery in Sydney.

During October, the Company completed three deliveries of precious metals-bearing material, generating total sales proceeds of approximately A$3.91 million.

The Company now anticipates weekly delivery volumes to increase as gold inventories within the processing circuit continue to build, subject to normal operational and processing variability as well as expectations of head grades increasing towards average JORC reserve head grades.
